

Uday Kisan Mankar

Software Developer

Wadegaon, Akola, Maharashtra, India | udaymankar9@gmail.com | +91 9325718722 | linkedin.com/in/udaymankar | github.com/udaymankar

OBJECTIVE

Motivated Computer Science Engineering fresher with strong knowledge of Core Java, Data Structures and Basic Web Development. Seeking an entry-level Software Developer role to build scalable applications and contribute to innovative technology solutions with willingness to relocate to Pune.

EDUCATION

B.Tech – Computer Science & Engineering | CGPA - 6.93

R.V. Parankar College of Engineering & Technology, Arvi 2022 – 2026

HSC | 68%

Shri Jageshwar Junior College, Wadegaon 2021 – 2022

SSC | 76.80%

Shri Jageshwar Vidyalaya, Wadegaon 2019 – 2020

TECHNICAL SKILLS

Programming Languages	Core Java, JavaScript, SQL basics
Concepts	Object-Oriented Programming (OOP), Basic Data Structures, REST Architecture, SDLC
Development Skills	File Handling & Serialization, Java Collection Framework, Web dev(HTML5, CSS3,Bootstrap)
Soft Skills	Communication Skills, Problem Solving, Team Collaboration, Adaptability
AI Productivity Tools	GitHub Copilot, ChatGPT, Claude, v0 by Vercel, Bolt.new

PROJECTS

Java ATM Simulation System

- Built a console-based ATM simulation system with real-world banking operations like deposit, withdrawal, and fund transfer.
- Implemented secure login with card number & PIN verification, including account lock after 3 failed attempts.
- Tracked all transactions using ArrayList with timestamped history and managed multiple accounts via HashMap.
- Applied OOP principles with modular class design and used Java Serialization for persistent data storage.
- Technologies:** Core Java, OOP, Collections Framework, File Handling, Exception Handling.

Digital Passbook Generator

- Developed a web-based financial utility application that converts raw transactions data into a formatted digital passbook interface.
- Implemented secure user authentication and database models to store and retrieve transaction history efficiently.
- Added data validation and error handling mechanisms to ensure accurate transaction processing and display.
- Designed a responsive and intuitive user interface for seamless transaction viewing across desktop and mobile.
- Technologies:** Python, Django, HTML, CSS bootstrap, JS

CERTIFICATIONS & ACHIEVEMENTS

- Web Application Development Internship – iBase Electrosoft LLP, Amravati
- Programming in Java – Infosys Springboard
- Database and SQL – Infosys Springboard
- Learn Java Masterclass (Java 17) Certification – Udemy
- Software Testing – Cyber Success, Pune
- Campus Ambassador Certification – DevTown

LANGUAGES

English, Hindi, Marathi
